

## Designed for the modern IB MYP Coordinator :

### Updated for the Next Chapter!

- ✔ Built-in support for all new curriculum components: Global Contexts, AtLs, Key & Related Concepts.
- ✔ Assess tasks using both MYP criteria and local grades.
- ✔ Submit final criterion grades, which are automatically summed & converted based on MYP grade boundaries.
- ✔ Generate stunning PDF report cards with built-in, personalized criterion descriptors.

## Everything you need to manage your IB Middle Years Programme!

### Collaborative Curriculum Planning

Create, edit and share units across year levels and subjects. Link units directly to summative & formative assessment tasks. Export your unit planners directly to the MYP Next Chapter PDF.

### Curriculum Mapping & Analytics

Easily complete vertical and horizontal planning with the whole-school curriculum map and export to PDF or Excel. Analyze concepts and skills, and effectively track coverage of prescribed minimum assessment tasks.

### Built-In Assessment Criteria

Assess summative tasks using built-in MYP achievement levels & criterion descriptors, or optionally use task-specific clarification. Customize criterion descriptors for to ensure suitability.

### Service as Action

Go paperless and track student progress on service activities instantly! Assign students to advisors, and seamlessly generate Service as Action PDF progress reports.

### Community & Personal Projects

View and approve all student projects at a glance. Browse process journals, set deadlines, and automate student reminders.

### Student & Parent Access

Improve school-to-home communication. Provide effective assessment feedback with personalized criterion descriptors.

Discover why over 2,000 IB World Schools use ManageBac!

“

Curriculum Analytics sure is a good way to streamline curriculum in MYP and create good integrated units of inquiry!

”
